

**HAYDUKE TRAIL HIKING RESOURCES BUNDLE
MAPSET LEGEND**

This legend is specific to the Bundle's mapset. If you would like to see the legend for the USGS topographic maps – on which the Bundle maps are based – visit this page: <http://earthshots.usgs.gov/Help-GardenCity/legendstext>. Below are the images and descriptions of the symbols and notations found in the Bundle mapset.

SYMBOL OR NOTATION	DESCRIPTION
	<p>Circles = on-trail segment</p> <p>Red circles = primary route, as described by guidebook</p> <p>Purple circles = alternate route</p>
	<p>Diamonds = off-trail segment</p> <p>Red diamonds = primary route, as described by guidebook</p> <p>Purple diamonds = alternate route</p>
	<p>Flag = Pay attention here! This usually indicates a junction: a trail or road junction, or a trailhead on a road, or a fork in a canyon, the end of an off-trail segment at a road or trail, etc.</p> <p>Red flags = primary route, as described by guidebook</p> <p>Purple flags = alternate route</p>
	<p>Mileage point = distance between the landmark and the beginning of a section in the guidebook, going east to west.</p>
	<p>Dashed line = exact recommended or required route, used only when scattered symbols (circles, diamonds, flags) inadequately represent the route, and mostly reserved for when pinpoint navigation is necessary (e.g. there's just one way to get in our out of a canyon, and the dashed line is it).</p> <p>Red = primary route</p> <p>Purple = alternate route</p>
	<p>Blue facet tap = potential water source. Check the Water Chart for more information about its reliability and quality.</p>

	<p>Yellow star = end of one guidebook section, and the beginning of another</p>
	<p>Thin solid black line = unmapped road</p>
	<p>Green tent = official designated campsite</p> <p>Only applicable to Bryce Canyon National Park – the other parks have dispersed camping along the HDT corridor.</p>
